HFCL Q3 net profit up 25 pc to Rs 102 cr

New Delhi, Jan 23 (PTI) Domestic telecom gear maker HFCL Limited on Monday posted a 25.3 per cent year-on-year rise in consolidated net profit for the December 2022 quarter at Rs 102 crore.

Its net profit stood at Rs 81 crore in the corresponding period of previous year, according to a company statement.

Revenue came in at Rs 1,086 crore for Q3 FY23, falling 10.6 per cent over the year-ago period.

HFCL Managing Director Mahendra Nahata said over the last few quarters, despite the global supply chain disruptions, the company continued to demonstrate strong business performance with strategy to tap into new geographies, new customers with new products and shift in revenue mix from projects to more of products which resulted in sustainable revenue and margin expansion.

The company's order book stood at over Rs 7,000 crore as on December 31, 2022 compared to Rs 5,280 crore in the previous quarter.

"HFCL has been granted approval to avail incentives up to Rs 652.79 crore from FY 22-23 to FY 26-27 as part of Government's production-linked incentive (PLI) scheme, wherein, we committed an investment of Rs 425 crore over a period of four years for the development and manufacturing of telecom products including 5G radio equipment, routers, switches, WiFi Products and backhaul radios," Nahata added.

HFCL profit up 21% sequentially in Q3

FE BUREAU
New Delhi, January 23

A STRONG INFLOW of orders and reduction in expenses helped HFCL to report a 20.5% quarter-on-quarter (q-o-q) increase in net profit to ₹102 crore in the October-December quarter. The company's revenue from operations, however, fell 7.5% q-o-q to ₹1,086 crore owing to fall in services revenue.

On a year-on-year basis, net profit rose 25.3%, whereas revenue from operations fell 10.7%. The company manufactures optic fibre cables and telecom equipment, and provides cloud-based network management systems.

"Over the last few quarters, despite supply chain disruptions... our strategy to tap into new geographies, new customers with new products and shift in revenue mix from projects to more of products ... has resulted into sustainable revenue and margin expansion," said Mahendra Nahata, managing director of HFCL.
