### **HFCL Q3 net profit jumps 87% to Rs 85 cr; says biz outlook optimistic**

New Delhi, Jan 14 (PTI) HFCL Ltd on Thursday posted nearly 87 per cent jump in its consolidated net profit for the December quarter at Rs 85.1 crore and projected an "optimistic" outlook backed by strong demand for optical fibre cables, FTTH as well as momentum in transformational projects, and 5G prospects.

The net profit in the corresponding period previous year stood at Rs 45.58 crore, according to a regulatory filing.

Total income came in at Rs 1,281.45 crore for Q3FY21, up 48.6 per cent over the year-ago period.

HFCL Managing Director Mahendra Nahata said the company had a robust order book of Rs 7,313 crore with an attractive pipeline ahead and is seeing good opportunities for its indigenously designed and developed products that have application across industries like telecom, railways and defence.

"Our outlook is very optimistic given the demand we are seeing for optical fibre cables and FTTH (fibre-to-the-home) not just in India but also from exports. Transformational projects like PM-WANI when viewed in conjunction with BharatNet, and add to that, the upcoming 5G rollout, all this will significantly boost the company's prospects," Nahata said in a statement.

HFCL Ltd (formerly Himachal Futuristic Communications Ltd) is a technology enterprise engaged in manufacturing of high end transmission and access equipment, optical fibre, optical fibre cables (OFC), with focus on setting up modern communication network for telecom service providers, railways, defence, smart city and surveillance projects.

# HFCL Q3 profit jumps 87% to ₹85 crore

**PRESS TRUST OF INDIA**

NEW DELHI, 17 JANUARY

HFCL Ltd has posted nearly 87 per cent jump in its consolidated net profit for the December quarter at Rs 85.1 crore and projected an “optimistic” outlook backed by strong demand for optical fibre cables, FTTH as well as momentum in transformational projects, and 5G prospects. The net profit in the corresponding period of the previous year stood at Rs 45.58 crore, according to a regulatory filing.

Total income came in at Rs 1,281.45 crore for Q3 FY21, up 48.6 per cent over the year-ago period.

HFCL managing director

Mahendra Nahata said the company had a robust order book of Rs 7,313 crore with an attractive pipeline ahead and is seeing good opportunities for its indigenously designed and developed products that have application across industries like telecom, railways and defence.

“Our outlook is very optimistic given the demand we are seeing for optical fibre cables and FTTH (fibre-to-the-home) not just in India but also from exports. Transformational projects like PM-WANI when viewed in conjunction with BharatNet, and add to that, the upcoming 5G rollout, all this will significantly boost the company's prospects,” Nahata said in a statement.

# HFCL to ramp up OFC output by 30 per cent in six months

## OUR BUREAU

Mumbai, January 17

HFCL, a telecom equipment manufacturer and systems integration company, is planning to ramp up optical fibre cable (OFC) production, including Fibre-To-The-Home (FTTH) cable, by 30 per cent. The company expects good demand for its products for the next five years.

"Today we manufacture about 19 million km of OFC per year. We are planning to increase this by 30 per cent in the next 6 months, by increasing capacity at our Hyderabad plant," HFCL Managing Director Mahendra Nahata said.

HFCL (formerly Himachal Futuristic Communications Ltd) manufactures OFC from its three facilities; Hyderabad, Chennai and Goa.

Currently, the company manufactures 52,000 km of FTTH cable per month at its Chennai and Hyderabad facilities. FTTH cable, and production of other

cables, will also be increased by 30 per cent, he added. The firm, which started production of WiFi products in this financial year, had already shipped nearly 1 lakh pieces. The company is also developing Software Defined Radio and High capacity radio relays for Defence.

Earlier, HFCL had also won contracts to install telecom systems for Mauritius and Dhaka metro rail projects.

## Order book

As of December 31, HFCL's order book stood at ₹7,313 crore to be executed over the next 1.5 years.

"With an attractive pipeline ahead, and we are seeing good opportunities for our indigenously designed and developed products that has application across industries such as telecom, Railways and Defence," Nahata said.

In February last year, HFCL acquired a 47.87 per cent stake in Chennai-based BigCat Wireless for ₹22.5 crore.

# HFCL to Put ₹125 Cr into R&D to Bag Civilian and Defence Market Share

## Our Bureau

**New Delhi:** Telecom infrastructure provider HFCL is planning to invest ₹125 crore in its R&D in 2020-21 in a bid to capture a large chunk of the ₹40,000 crore communications infrastructure market for civilian as well as defence forces in the next five years.

“The outlook for 2020-21 is very positive and our focus is on expanding revenue from our own designed products,” Mahendra Nahata, managing director of HFCL, told ET.

Nahata said the government launching PM-Wani (public WiFi), an optic fibre cable network through Bharat Broadband, pushing for ‘make in India’, especially for critical sectors like communication and the pandemic-induced massive uptake for fiber-to-the-home due to increasing demand for high speed broadband together were creating massive opportunities for companies like HFCL.

HFCL, among the largest optic fibre cable producers in India, manufactures telecom equipment and has a cable business with backward integration into fibre.

Nahata said the recent national security directive for the telecom sector was another shot in the arm for home-grown ventures, which would be encouraged to invest in research and development of 5G equipment. “5G is another big opportunity,” he said. 5G technology, which is still evolving globally, will require treble the amount of cell sites needed in 4G deployment and very high bandwidth especially at time of downlinking.

“This is where you need fibre optic cable and high bandwidth radio in E band, another area we are working at and will soon announce our partnerships,” Nahata added. WiFi 6, next generation WiFi, was among the array of products under testing, he added.

NEW DELHI: Optic-fibre cable or OFC contributes a major pie of the Indian telecom carriers expenditure on creating digital infrastructure which is also a backbone to achieve Centre's ambitious Digital India vision, an executive of the country's top fibre maker said.

"Telcos are making aggressive investments in digital network infrastructure, and optic-fibre cable holds a major share of telcos' overall digital infrastructure investment," Anand Agarwal, group chief executive Sterlite Technologies Limited (STL) told ETTelecom.

Following the demand triggered by service providers' aggressive Fibre-to-the-Home (FTTH) strategy, and upcoming fifth generation (5G) networks, the Pune-based predominant optic-fibre producer is planning to invest Rs 300-crore to boost its production capacity, while the second-largest HFCL Limited is also eyeing to increase production capability by at least 33%.

## Share Market Highlights: Sensex ends at record high, Nifty at 14,595; L&T, ITC, RIL, Bajaj twins top gainers

BusinessToday.In, | January 14, 2021 17:05 IST

**Sensex, Nifty Highlights on January 14:** In a volatile trading session, market indices reversed trend and closed on a bullish note, near record highs on Thursday, tracking cues from mixed global equities. Sensex ended by 91 points at 49,584 and Nifty gained by 30 points to 14,595.

Yesterday, Sensex ended 24 points lower at 49,494 and Nifty closed 1 point higher at 14,564. In the last session, Sensex and Nifty hit new lifetime highs of 49,795 and 14,653, respectively. Meanwhile, December quarterly earnings announcements by Den Networks, HFCL, Reliance Industrial Infrastructure, Tata Steel Long Products, Websol Energy System and Digicontent will also set the tone for the stock market today.

As per traders, consistent foreign inflows along with better quarterly results are continuing to set the pace of the broad market. IndusInd Bank, ITC, L&T, Bajaj Auto and Kotak Bank were among the gainers. On the other hand, HCL Tech, Infosys, Tech Mahindra, Asian Paints, UltraTech Cement and Bajaj Finance were among the top losers on Sensex pack.

HFCL Ltd reported 49.7% growth in Dec-20 quarter top line revenues yoy at Rs1277.48cr. The revenues showed a sharp growth across both its verticals viz. the telecom products vertical and the turnkey contracts vertical.

For the Dec-20 quarter, the operating profits were sharply up 82.1% at Rs155.35cr. This was on the back of higher revenues and better margins on high-end telecom products. As a result, operating margin or OPM expanded from 10.00% in the Dec-19 quarter to 12.16% in Dec-20 quarter.

Profit after tax (PAT) for the Dec-20 quarter was up 86.73% at Rs85.11cr on better operating metrics. PAT margins for the Dec-20 quarter only grew from 5.34% in Dec-19 to 6.66% in Dec-20. The huge equity base continues to be an overhang on the stock.

## Did You Miss HFCL's (NSE:HFCL) 87% Share Price Gain?

By Simply Wall St

Published January 14, 2021

Passive investing in index funds can generate returns that roughly match the overall market. But you can significantly boost your returns by picking above-average stocks. To wit, the **HFCL Limited (NSE:HFCL)** share price is 87% higher than it was a year ago, much better than the market return of around 18% (not including dividends) in the same period. So that should have shareholders smiling. However, the stock hasn't done so well in the longer term, with the stock only up 7.1% in three years.

To paraphrase Benjamin Graham: Over the short term the market is a voting machine, but over the long term it's a weighing machine. One imperfect but simple way to consider how the market perception of a company has shifted is to compare the change in the earnings per share (EPS) with the share price movement.

During the last year, HFCL actually saw its earnings per share drop 60%.

BSE Sensex and Nifty 50 were likely to open in the negative territory on Friday, as suggested by trends on SGX Nifty in early trade.

With valuations stretched and markets at all-time highs, analysts suggest investors to stick to large-cap stocks.

BSE Sensex and Nifty 50 were likely to open in the negative territory on Friday, as suggested by trends on SGX Nifty in early trade. Nifty futures were trading 64.50 points or 0.44 per cent down at 14,558.50 on Singaporean Exchange. In the previous session, Sensex ended up 92 points or 0.19 per cent at 49,584, while the broader Nifty 50 gained 31 points or 0.21 per cent to 14,595.60. Markets participants will keenly watch the October-December quarter earnings for stock-specific development, along with other global cues. Chartists believe that the underlying trend of Nifty remains range bound with positive bias. "There is a possibility of further upside and new high formation above 14653 levels in the next couple of sessions, but one needs to be cautious about sharp profit booking from the new highs in the next 1-2 sessions," said Nagaraj Shetti, Technical Research Analyst, HDFC Securities.

NEW DELHI: Optic-fibre cable or OFC contributes a major pie of the Indian telecom carriers expenditure on creating digital infrastructure which is also a backbone to achieve Centre's ambitious Digital India vision, an executive of the country's top fibre maker said.

"Telcos are making aggressive investments in digital network infrastructure, and optic-fibre cable holds a major share of telcos' overall digital infrastructure investment," Anand Agarwal, group chief executive Sterlite Technologies Limited (STL) told ETTelecom.

Following the demand triggered by service providers' aggressive Fibre-to-the-Home (FTTH) strategy, and upcoming fifth generation (5G) networks, the Pune-based predominant optic-fibre producer is planning to invest Rs 300-crore to boost its production capacity, while second-largest HFCL Limited is eyeing to increase production capability by at least 33%.

"Optical fibre infrastructure is the cornerstone for achieving the goals of Digital India vision. Fibre networks are at the core to address the digital divide in the country," Agarwal added.

India's top fibre manufacturers — Sterlite Technologies and HFCL Limited — are banking on Prime Minister Narendra Modi's prestigious Digital India umbrella program that aims to achieve 100% tele-density, broadband for all, and fibre-based national backbone called BharatNet for seamless delivery of public services.
