## **HFCL ships 1 lakh indigenously made Wi-Fi products, plans global expansion**

Domestic telecom gear maker HFCL on Wednesday said it has completed the shipment of one lakh Wi-Fi products made indigenously and now plans to expand its global footprint.

The company said it is enhancing readiness to serve 5G network requirements as well.

"HFCL has completed one lakh units" shipment of a wireless networking portfolio comprising Wi-Fi access points and Point to Point Unlicensed Band Radios to its customers. HFCL has been able to achieve this key milestone in less than a year of commencing production," HFCL said in a statement.

HFCL said the entire product portfolio has been conceptualized, designed, developed and manufactured by HFCL in India complying with global specifications and all these products are being sold under the brand name IO.

"We plan to expand our global footprint to cover international terrains with our Made in India products and continue to play an active role in the Atmanirbhar Bharat Abhiyaan," HFCL Managing Director Mahendra Nahata said.

The company aims to project India as the next generation innovation and manufacturing hub for telecom products, the statement said.

The government has earmarked an incentive of around Rs 12,000 crore to push domestic telecom gear manufacturing and the guidelines are expected to be in place this month.

Currently, Indian telecom market is dominated by foreign equipment suppliers.

"With 5G rollout expected in 2021 in India, HFCL is geared to serve the next generation communication needs of customers in India to boost the country's 4G connectivity and enhance its readiness for 5G," the statement said

## अपने मेड इन इंडिया प्रोडक्ट्स के जरिए वैश्विक स्तर पर विस्तार की योजना

नई दिल्ली एजेन्सी। भारत की अग्रणी टेलीकॉम कम्पनी एचएफसीएल ने वाईफाई एक्सेस पॉइंट्स और पॉइंट टू पॉइंट अनलाइसेंस्ड बैंड रेडियो वाले वायरलैस नेटवर्किंग पोर्टफोलियो की एक लाख यूनिट की शिपमेंट पूरी कर ली है। एचएफसीएल ने यह उपलब्धि प्रोडक्शन शुरू करने के बाद एक वर्ष से भी कम समय में हासिल की है। एक लाख यूनिट की शिपमेंट पूरी करने के बाद एचएफसीएल के वाईफाई रेंज के प्रोडक्ट पूरे देश में पहुंच गए हैं और विभिन्न श्रेणियों के ग्राहकों की जरूरतों को पूरा कर प्रतिदिन कई टेराबाइट डाटा प्रोसेस कर रहे हैं।

पूरा प्रोडक्ट पोर्टफोलियो एचएफसीएल ने भारत में ही डिजाइन, विकसित और निर्मित किया है और इस प्रक्रिया में वैश्विक आवश्यकताओं का ध्यान रखा गया है। ये प्रोडक्ट अभी आईओ, ब्रांड नाम से बेचे जा रहे हैं। एचएफसीएल की आईओ रेंज के प्रोडक्ट पोर्टफोलियो में वाईफाई इंडोर और आउटडोर एक्सेस पॉइंट्स तथा अनलाइसेंस्ड बैंड में पॉइंट टू पॉइंट और पॉइंट टू मल्टीपल रेडियो तथा जीरो टच प्रोविजनिंग वे नेटवर्क एप्लीमेंट्स के आसान प्रबंधन के लिए बड़े पैमाने पर क्लाउड प्लेटफॉर्म शामिल है।

इस उपलब्धि के बारे में

एचएफसीएल के मैनेजिंग डायरेक्टर महेन्द्र नाहटा कहते हैं, “आज के परिदृश्य में उंची बैंडविड्थ की बहुत ज्यादा मांग है, ऐसे में निर्बाध कनेक्टिविटी और उपकरण ग्राहकों के लिए जीवनरेखा की तरह जरूरी हो गए हैं ताकि वे अपने कार्यस्थल और परिवार के साथ डिजिटली कनेक्ट रह सकें। एचएफसीएल द्वारा स्वयं डिजाइन और उत्पादित किए गए एक्सेस पॉइंट्स और अनलाइसेंस्ड बैंड रेडियो उन ग्राहकों के लिए सबसे ज्यादा स्वीकार्य और टिकाऊ नेटवर्किंग सॉल्यूशंस साबित हुए हैं, जिन्हें उच्च प्रदर्शन और बड़े पैमाने पर काम करने वाले उत्पाद चाहिए। हम हमारे मेड

इन इंडिया उत्पादों के जरिए वैश्विक स्तर पर विस्तार की योजना बना रहे हैं और आत्मनिर्भर भारत के लक्ष्य को पूरा करने में हम सक्रिय भूमिका निभाते रहेंगे।”

कम्पनी का लक्ष्य है कि भारत को टेलीकॉम उत्पादों में अत्याधुनिक नवाचार और निर्माण का हब बनाया जाए। देश में 2021 में 5जी की शुरुआत होने जा रही है। ऐसे में एचएफसीएल भारत के ग्राहकों की अत्याधुनिक कम्युनिकेशन जरूरतों को पूरा करने के लिए पूरी तरह तैयार है ताकि भारत की 4 जी कनेक्टिविटी को बूस्ट किया जा सके और 5 जी के लिए इसकी तैयारी को बढ़ाया जा सके।

### Synopsis

The homegrown company, that has an order book of Rs 7,500 crore has supplied Wi-Fi gear to private players and is also eyeing to further ship the new made-in-India product worldwide.

Last month, the Cabinet has approved the Prime Minister's Wi-Fi Access Network Interface (PM-WANI) scheme aimed to improve wireless connectivity by way of offering free wireless Internet in public places across the country, as a part of the Digital India program.

NEW DELHI: HFCL Limited, formerly known as Himachal Futuristic Communications has supplied indigenously designed, developed, and manufactured 100,000 Wi-Fi systems in a record time, and believes that Wi-Fi Access Network Interface or WANI together with the Centre's ambitious BharatNet initiative would augment broadband uptake in rural India.

"We have developed a carrier-grade Wi-Fi system. It is totally 100% indigenous R&D including hardware and software. Within a few months, we have already supplied 1 lakh units of Wi-Fi products in 2020," Mahendra Nahata, managing director, HFCL told ETTelecom.

## HFCL ships 1 lakh indigenously made Wi-Fi products, plans global expansion

New Delhi, Jan 6 (PTI) Domestic telecom gear maker HFCL on Wednesday said it has completed the shipment of one lakh Wi-Fi products made indigenously and now plans to expand its global footprint.

The company said it is enhancing readiness to serve 5G network requirements as well.

"HFCL has completed one lakh units" shipment of a wireless networking portfolio comprising Wi-Fi access points and Point to Point Unlicensed Band Radios to its customers. HFCL has been able to achieve this key milestone in less than a year of commencing production," HFCL said in a statement.

HFCL said the entire product portfolio has been conceptualized, designed, developed and manufactured by HFCL in India complying with global specifications and all these products are being sold under the brand name IO.

"We plan to expand our global footprint to cover international terrains with our Made in India products and continue to play an active role in the Atmanirbhar Bharat Abhiyaan," HFCL Managing Director Mahendra Nahata said.

The company aims to project India as the next generation innovation and manufacturing hub for telecom products, the statement said.

The government has earmarked an incentive of around Rs 12,000 crore to push domestic telecom gear manufacturing and the guidelines are expected to be in place this month.

Currently, Indian telecom market is dominated by foreign equipment suppliers.

"With 5G rollout expected in 2021 in India, HFCL is geared to serve the next generation communication needs of customers in India to boost the country's 4G connectivity and enhance its readiness for 5G," the statement said. PTI PRS RUJ RUJ

### HFCL completes 100,000 units' shipment of Wi-Fi Product portfolio within its first full year of commencing production

January 2021 Press Release

HFCL, India's leading telecom company, has completed 100,000 units' shipment of a wireless networking portfolio comprising of Wi-Fi Access Points and PoE-to-PoE (Power over Ethernet) based Switches to its customers. HFCL has been able to achieve this key milestone in less than a year of commencing production. With the completion of 100,000 units' shipment, HFCL's Wi-Fi range of products have proliferated across the length and breadth of the country meeting a multitude of requirements coming from a diverse customer base and are processing tons of terabytes of data on a daily basis.

The entire product portfolio has been conceptualized, designed and manufactured by HFCL, in India complying with Global specifications. These products are being sold under the brand name 'D'. As of right now, HFCL's Wi-Fi range of product portfolio includes Wi-Fi Routers and Switches Access Points, PoE-to-PoE and PoE-to-PoE to Multiple Routers in advanced form and a uniquely scalable cloud platform for easy back processing and easy management of the network elements.

Speaking on this achievement, Maheshwari Sahas, Managing Director, HFCL, said, "In current scenario, where there is a huge demand for higher bandwidth, wireless connectivity, and devices becoming the backbone of the consumer to remain digitally connected with their workspaces and families, HFCL's indigenous designed and produced Access Points and advanced Switches have played a pivotal role as the most dependable, adaptable and customer-reluctant solutions for customers who have repeatedly opted for our high performance and uniquely scalable products. We plan to expand our global footprint to cover international borders with our India-made products and continue to play an active role in the Resilient India Movement."

The Company aims to project India as the next generation innovation and manufacturing hub for telecom products. With 5G rollout expected in 2021 in India, HFCL is geared to serve the next generation communication needs of customers in India to boost the country's 5G connectivity and enhance its readiness for 5G.

## HFCL completes 1 lakh units' shipment of WiFi Product portfolio within its first full year of commencing production

Published on January 6, 2021

**New Delhi:** HFCL, India's leading telecom company has completed 1 lakh units' shipment of a wireless networking portfolio comprising of Wi-Fi Access Points and Point to Point Unlicensed Band Radios to its customers. HFCL has been able to achieve this key milestone in less than a year of commencing production. With the completion of 1 lakh units' shipment, HFCL's WiFi range of products have proliferated across the length and breadth of the country serving a multitude of requirements coming from a diverse customer base and are processing tens of terabytes of data on a daily basis.

The entire product portfolio has been conceptualized, designed, developed and manufactured by HFCL in India complying with Global specifications. These products are being sold under the brand name IO. As of right now, HFCL's IO range of product portfolio includes Wi-Fi Indoor and Outdoor Access Points, Point to Point and Point to multipoint Radios in unlicensed band and a massively scalable cloud platform for zero touch provisioning and easy management of the network elements.

Speaking on this achievement, Mr. Mahendra Nahata, Managing Director, HFCL said, "In current scenario, when there is a huge demand for higher bandwidths, seamless connectivity, and devices becoming the lifeline of the consumers to remain digitally connected with their workspaces and families, HFCL's indigenously designed and produced Access Points and unlicensed band radios have played a pivotal role as the most dependable, adaptable and sustainable networking solutions for customers who have repeatedly opted for our high performance and massively scalable products. We plan to expand our global footprint to cover international terrains with our Made in India products and continue to play an active role in the Atmanirbhar Bharat Abhiyaan."

The Company aims to project India as the next generation innovation and manufacturing hub for telecom products. With 5G rollout expected in 2021 in India, HFCL is geared to serve the next generation communication needs of customers in India to boost the country's 4G connectivity and enhance its readiness for 5G.

## HFCL COMPLETES 1 LAKH UNITS' SHIPMENT OF WIFI PRODUCT PORTFOLIO WITHIN ITS FIRST FULL YEAR OF COMMENCING PRODUCTION

HFCL, India's leading telecom company has completed 1 lakh units' shipment of a wireless networking portfolio comprising of Wi-Fi Access Points and Point to Point Unlicensed Band Radios to its customers. HFCL has been able to achieve this key milestone in less than a year of commencing production. With the completion of 1 lakh units' shipment, HFCL's WiFi range of products have proliferated across the length and breadth of the country serving a multitude of requirements coming from a diverse customer base and are processing tens of terabytes of data on a daily basis.

The entire product portfolio has been conceptualized, designed, developed and manufactured by HFCL in India complying with Global specifications. These products are being sold under the brand name IO. As of right now, HFCL's IO range of product portfolio includes Wi-Fi Indoor and Outdoor Access Points, Point to Point and Point to multipoint Radios in unlicensed band and a massively scalable cloud platform for zero touch provisioning and easy management of the network elements.

Speaking on this achievement, Mr. Mahendra Nahata, Managing Director, HFCL said, "In current scenario, when there is a huge demand for higher bandwidths, seamless connectivity, and devices becoming the lifeline of the consumers to remain digitally connected with their workspaces and families, HFCL's indigenously designed and produced Access Points and unlicensed band radios have played a pivotal role as the most dependable, adaptable and sustainable networking solutions for customers who have repeatedly opted for our high performance and massively scalable products. We plan to expand our global footprint to cover international terrains with our Made in India products and continue to play an active role in the Atmanirbhar Bharat Abhiyaan."

The Company aims to project India as the next generation innovation and manufacturing hub for telecom products. With 5G rollout expected in 2021 in India, HFCL is geared to serve the next generation communication needs of customers in India to boost the country's 4G connectivity and enhance its
