### **HFCL finishes laying optical fiber cable in Jharkhand**

Mumbai, Apr 1 (PTI): HFCL Ltd on Friday announced the completion of laying Optical Fiber Cable (OFC) in Jharkhand, under the Centre's ambitious BharatNet project.

"HFCL has completed connectivity of 1,789 gram panchayats through GPON network wherein 7,765 kms of OFC network has been laid out thereby providing broadband connectivity to all the gram panchayats of Jharkhand," the company said in a statement.

Despite tough terrains and other challenges, Jharkhand has become the first state to provide connectivity to all its gram panchayats under state-led model of BharatNet programme.

## **HFCL completes broadband connectivity in all gram panchayats of Jharkhand**

Ranchi, Apr 1 (PTI) Telecom gear maker HFCL on Friday said it has completed broadband connectivity by optical fiber cable in all gram panchayats of Jharkhand under BharatNet project.

Post completion, Jharkhand has become the first state in the country to provide broadband connectivity in all gram panchayats, it claimed.

BharatNet is a flagship mission implemented by Bharat Broadband Network Limited (BBNL) wherein the Government of India through the Department of Telecom had created a strategic plan for providing broadband connectivity to 2,50,000 gram panchayats in India on optical fiber cable with a minimum of 100 Mbps speed.

"HFCL has completed connectivity of 1,789 gram panchayats through GPON network wherein 7,765 km of OFC network has been laid out thereby providing broadband connectivity to all the gram panchayats of Jharkhand. Despite tough terrains and other challenges in the state, Jharkhand has become the first state in the country to provide connectivity to all the gram panchayats under state-led model of BharatNet Programme of the Government of India," the company said in a statement.

Terming it a "proud moment" for HFCL, the company said it will operate and maintain the network for eight years to ensure continuous high quality broadband services to the people of the state.

HFCL said it had also completed broadband connectivity by deploying 7,869 km of OFC network connecting 3,209 gram panchayats with GPON network in Punjab.

Apart from deploying network in Punjab and Jharkhand, HFCL is also supplying fiber optic cables in Maharashtra, Telangana and Chhattisgarh under BharatNet project.

Mahendra Nahata, MD, HFCL said, "We are delighted to announce successful completion of creating premium quality OFC network and making Jharkhand the first state in the state-led model of BharatNet Programme of Government of India to complete broadband connectivity to all the gram panchayats of the state."

Nahata said the company is proud to have executed this high quality OFC network which will serve the rural population of the state for many years to come.

HFCL is a leading technology enterprise engaged in manufacturing of high-end transmission and access equipment, optical fiber, optical fiber cables (OFC) and is specialised in setting up modern communication network for Telecom Service Providers, Railways and Defence.

HFCL completes OFC laying in Jharkhand, making it the first state to provide connectivity under state-led model of BharatNet  
April 2022 | Internet & Broadband/News, News, Press Release

Hiracel Futuretek Communications Limited (HFCL) has announced the successful completion of laying optical fiber cables (OFC) in the state of Jharkhand under the government of India's BharatNet project. HFCL has completed connectivity of 2,719 p-pair kilometers (GPs) through GPON network whereas 7.76T Kilometers of OFC network has been laid out thereby providing broadband connectivity to all the GPs of Jharkhand.

Despite rugged terrain and other challenges in the state, Jharkhand has become the first state in the country to provide connectivity to all the GPs of the state under state-led model of BharatNet programme of the government of India. To ensure continuous high quality broadband services to the people of the state, HFCL will own and maintain this network for next 8 years.

Separately, HFCL has also completed broadband connectivity by deploying 7,884 Kilometers of OFC network connecting 3,209 GPs with GPON network in the state of Punjab. Apart from deploying network in Punjab and Jharkhand, HFCL is also supplying fibre optic cables in Maharashtra, Telangana and Chhattisgarh under BharatNet project.

BharatNet is a flagship Indian initiative implemented by Bharat Broadband Network Limited (BBNL) under the government of India through the Department of Telecommunications (DoT) that created a strategic plan for providing broadband connectivity to 250,000 GPs in rural area optical fibre cable with a coverage of 500 Mbps speed.

Commenting on the development, Maheshwari Nataraj, MD, HFCL, said, "We are delighted to announce successful completion of creating premium quality OFC network and making Jharkhand the first state in the state-led model of BharatNet programme of government of India to complete broadband connectivity to all the gram panchayats of the state. HFCL is proud to have executed the high quality OFC network which will serve the rural population of the state of Jharkhand for next years to come. HFCL is fully committed to continue to serve with these such projects with high quality, consistent and speed."

## HFCL completes broadband connectivity in all gram panchayats of Jharkhand

PTI

Updated: April 01, 2022 22:28 IST

Ranchi, Apr 1 (PTI) Telecom gear maker HFCL on Friday said it has completed broadband connectivity by optical fiber cable in all gram panchayats of Jharkhand under BharatNet project.

Post completion, Jharkhand has become the first state in the country to provide broadband connectivity in all gram panchayats, it claimed.

BharatNet is a flagship mission implemented by Bharat Broadband Network Limited (BBNL) wherein the Government of India through the Department of Telecom had created a strategic plan for providing broadband connectivity to 2,50,000 gram panchayats in India on optical fiber cable with a minimum of 100 Mbps speed.

"HFCL has completed connectivity of 1,789 gram panchayats through GPON network wherein 7,765 km of OFC network has been laid out thereby providing broadband connectivity to all the gram panchayats of Jharkhand. Despite tough terrains and other challenges in the state, Jharkhand has become the first state in the country to provide connectivity to all the gram panchayats under state-led model of BharatNet Programme of the Government of India," the company said in a statement.

Terming it a "proud moment" for HFCL, the company said it will operate and maintain the network for eight years to ensure continuous high quality broadband services to the people of the state.

HFCL said it had also completed broadband connectivity by deploying 7,869 km of OFC network connecting 3,209 gram panchayats with GPON network in Punjab.

Apart from deploying network in Punjab and Jharkhand, HFCL is also supplying fiber optic cables in Maharashtra, Telangana and Chhattisgarh under BharatNet project.

Mahendra Nahata, MD, HFCL said, "We are delighted to announce successful completion of creating premium quality OFC network and making Jharkhand the first state in the state-led model of BharatNet Programme of Government of India to complete broadband connectivity to all the gram panchayats of the state."

Nahata said the company is proud to have executed this high quality OFC network which will serve the rural population of the state for many years to come.

HFCL is a leading technology enterprise engaged in manufacturing of high-end transmission and access equipment, optical fiber, optical fiber cables (OFC) and is specialised in setting up modern communication network for Telecom Service Providers, Railways and Defence. PTI NAM

The screenshot shows a news article on the FA News website. The main headline is "HFCL completes broadband connectivity in Jharkhand under BharatNet". The article is dated 02 April 2022. The text describes how HFCL, a telecom giant, has completed broadband connectivity by optical fiber cables in all gram panchayats of Jharkhand under the BharatNet project. It mentions that Jharkhand is the first state in the country to provide broadband connectivity to all Gram Panchayats. The article also notes that BharatNet is a flagship mission implemented by Bharat Broadband Network Limited (BBNL), where the Department of Telecom in India has created a strategic plan to provide broadband connectivity to 2,55,000 gram panchayats in India on optical fiber cable with a minimum of 100 Mbps. The connectivity of 7,789 gram panchayats has been completed through the GPON network, wherein 7,260 km of OFC has been laid out providing broadband connectivity to all the gram panchayats of Jharkhand. Despite tough terrain and other challenges in the state, Jharkhand has become the first state in the country to provide connectivity to all gram panchayats under the state-led model of BharatNet Programme of the Government of India, the company said in a statement. The company said it would continue to operate and maintain the network for eight years to ensure the continuous high-quality broadband services to the people of the state, despite the fact that it was a proud moment for HFCL. HFCL has also completed broadband connectivity by deploying 7,869 km of OFC network connecting 3,208 gram panchayats with the GPON network in Punjab. HFCL is also providing fiber optic cables in Chhattisgarh, Telangana and Punjab under the BharatNet project, as well as deploying network in Punjab and Jharkhand. Mahendra Nahata, MD, HFCL, said, "We are delighted to announce the successful completion of the premium-quality OFC network and make Jharkhand the first state in the state-led model of BharatNet Programme of Government of India to provide broadband connectivity to all the gram panchayats of the state. Nahata said the company is proud to have executed this high-quality OFC network."

# BharatNet: HFCL completes broadband connectivity in all gram panchayats of Jharkhand

Jaclyn Diaz • 2 days ago

15

Business Today

Telecom equipment maker HFCL announced on Friday that it has completed fiber optic broadband connectivity in all gram panchayats of Jharkhand as part of the BharatNet project.

Once completed, Jharkhand will become the first state in the country to offer broadband connections in all gram panchayats, it said.

BharatNet is a flagship mission implemented by Bharat Broadband Network Limited (BBNL) where the Government of India through the Ministry of Telecommunications is developing a strategic plan to provide broadband connectivity for 2,50,000 grams of Panchayats in India over at least 100 fiber optic cables had Mbit/s speed.

"HFCL has completed connectivity of 1,789 grams of panchayats via GPON network, laying out 7,765 km of OFC network, providing broadband connections for all gram panchayats from Jharkhand. Despite the difficult terrain and other challenges in the state, Jharkhand has become the first state in the country to provide connectivity to all Gram Panchayats under the state-led model of the Government of India's BharatNet program," the company said in a statement.

## HFCL completes Broadband connectivity by Optical Fiber Cable of in the Gram Panchayats of Jharkhand

By Radar Hit News - April 2, 2022

HFCL Limited (HFCL), leading telecom equipment, fiber optic cables manufacturer and technology provider, has announced the successful completion of laying optical fiber cable (OFC) in the state of Jharkhand under the Government of India's prestigious BharatNet Project.

HFCL has completed connectivity of 1,789 Gram Panchayats through GPON network wherein 7765 kms of OFC network has been laid out thereby providing Broadband connectivity to all the Gram Panchayats of Jharkhand.

Despite tough terrains and other challenges in the State, Jharkhand has become the first State in the Country to provide connectivity to all the Gram Panchayats of the State under State-led model of BharatNet Programme of the Government of India. It is a pride moment for HFCL that it executed this high quality network with precision and speed.

To ensure continuous high-quality Broadband services to the people of the State, HFCL will operate and maintain this network for next 8 years, the company said in the filing.

It is noteworthy that HFCL had also completed Broadband connectivity by deploying 7869 Kms of OFC network connecting 3209 Gram Panchayats with GPON network in the State of Punjab. Apart from deploying network in Punjab & Jharkhand, HFCL is also supplying fiber optic cables in Maharashtra, Telangana & Chhattisgarh under BharatNet project.

Speaking on this achievement, Mr. Mahendra Nahata, MD, HFCL said, "We are delighted to announce successful completion of creating premium quality OFC network and making Jharkhand the first State in the State-led model of BharatNet Programme of Government of India to complete Broadband connectivity to all the Gram Panchayats of the State. HFCL is proud to have executed this high quality OFC network which will serve the rural population of the State of Jharkhand for many years to come. HFCL is fully committed to continue to serve more such projects with high quality, precision and speed."

**Jharkhand becomes the first State in the country to provide connectivity of all gram panchayats under State-led Model of BharatNet Programme.**

New Delhi, NFAPost: HFCL Limited (HFCL), leading telecom equipment, fiber optic cables manufacturer and technology provider, has announced the successful completion of laying optical fiber cable (OFC) in the state of Jharkhand under the government of India's prestigious BharatNet project.

HFCL has completed connectivity of 1,789 gram panchayats through GPON network wherein 7,765 kms of OFC network has been laid out thereby providing Broadband connectivity to all the gram panchayats of Jharkhand.

Despite tough terrains and other challenges in the State, Jharkhand has become the first State in the country to provide connectivity to all the gram panchayats of the State under state-led model of BharatNet programme of the government of India.
