HFCL Invests ₹144 cr to Set Up a New OFC Plant in Poland

Our Bureau

New Delhi: Homegrown telecom gear maker HFCL on Wednesday said it has expanded its operations in Europe by setting up a new optical fibre cable (OFC) manufacturing plant in Poland with a capacity of 3.25 million fibre-kilometre (fkm) and scalable to up to se-

ven million fkm.

It has been set up with an initial capital outlay of ₹144 crore.

"With this strategic expansion, we are poised to align with Europe's vision, which anticipates gigabit connectivity as a cornerstone of its future," said Mahendra Nahata, managing director at HFCL. The establishment of the manufacturing facility in Poland will be fac-

ilitated through the incorporation of a new step-down subsidiary in Poland under HFCL BV, a wholly owned subsidiary of the company in the Netherlands.

The new OFC plant will cater to the local market, as well as demand in European markets such as the UK, Germany,

Belgium, France, and others.

HFCL said it aims to ramp up the share of exports in its OFC vertical revenue from the current 30% to 70% within the next four to five years.

Europe's OFC market is projected to grow at a compound annual growth rate (CAGR) of about 4.5% over the next five years with expected demand of 90 million fkm per annum by 2028, HFCL said.

HFCL to set up optical fiber cable plant in Poland

Feb-21-2024

HFCL has planned to expand into Europe with the setting up of a state-of-the-art OFC manufacturing plant in Poland. This move marks a significant milestone in the company's global expansion strategy, aimed at addressing the increasing demand for OFC in European markets such as UK, Germany, Belgium, France, Poland etc.

With an ambitious vision to capitalize on burgeoning market opportunities and fortify its position as a key player in the OFC domain, HFCL aims to ramp up share of exports in its OFC vertical revenue from the current 30% to 70% within the next 4-5 years. Europe, with its promising growth prospects, particularly stands out as a focal point for HFCL's strategic initiatives.

HFCL is a leading telecom infrastructure developer, system integrator and manufacturer of high-end telecom equipment and optical fibre cables, having its own manufacturing facilities at Solan and Goa, and its subsidiary i.e. HIL facilities in Chennai and Hosur.

Telecom Giant HFCL Sets Optical Fibre Cable Plant in Poland

CIOTechOutlook Team | Thursday, 22 February 2024, 05:48 IST

India's **telecom firm** HFCL has declared an strategic venture into Europe with the setting up of an **optical fiber** link fabricating plant in Poland. In a delivery, HFCL said the move denotes an achievement in the organization's worldwide development technique, pointed toward tending to the rising interest for OFC in European business sectors like the UK, Germany, Belgium, France, Poland, among others.

HFCL's manufacturing unit in Poland will begin with a capacity of 3.25 million fibre km (fkm) and scalable up to 7 million fkm, with an initial capital outlay of up to Rs 144 crore, thus fulfilling the increasing OFC demand, as per ET.
